SKXXX - ConnectShip Toolkit 6.5

Purpose - Configure a ConnectShip Server to manage all shipments

Procedure

Windows Server 2008 R2: Microsoft IIS Installation

Microsoft IIS has to be installed first before the ConnectShip Toolkit, otherwise, the Progistics Start Page will not load properly

Once the Progistics Start Page is loaded via Internet Explorer > View Compatibility Settings > add localhost

Role Services

Common HTTP Features

Static Content Compression

Management Tools
IIS Management Console
IIS Management Scripts and Tools
Management Service

Configuration

Create Folder > "C:\UPSAST\ConnectShipDownload"
Create Folder > "C:\UPSAST\ConnectShipUpdates"

Start > All Programs > ConnectShip Progistics > Right-click **Progistics Management Console** > Open as Administrator

Enterprise > Licensing

License ID: 93693
Password: szr6hVBP

Versions and Updates > Updates

Double-click each update and save it into C:\UPSAST\ConnectShipUpdates
First time, it will prompt for a ConnectShip Members Area Login
Username: robertdesarbo
Password: Con2012necT
Install Now > No

Close Progistics Management Console > Navigate into C:\UPSAST\ConnectShipUpdates
Order of installation:
Install the COREs first
Install the COMs second
Install the remainder in any order

Re-open the Progistics Management Console as Administrator
Versions and Updates > Updates > Verify that all of the updates have been installed

After every update, **maintenance** is required on that server component
Right-click Server Components > Run Maintenance on all server components

Right-click Shipper Configuration > Add Shipper

Save

Development Environment

Carrier Configuration > UPS (Consolidated)
Check "Use Test Mode (disables all data communication with the server)"

Production Environment: Commission a Production Server

On the old ConnectShip server, record the `Last Tracking Number Used`

Carrier Configuration > UPS (Consolidated) > SKS Bottle & Packaging, Inc. (SHIP1) > Account Configuration
General Tab
Advanced. . . > Record `Last Tracking Number Used`

Carrier Configuration > UPS (Consolidated) > SKS Bottle & Packaging, Inc. (SHIP2) > Account Configuration
General Tab
Advanced. . . > Record `Last Tracking Number Used`

On the new ConnectShip server, increase the `Last Tracking Number Used` by a couple thousand to avoid tracking number conflicts

Carrier Configuration > UPS (Consolidated)
